

Biography John Taylor

John H. Taylor Dingwille, well be
officially recorded in March, 1949, after
40 years of association with society since
and operated Power & Light companies with
with Power & Light Co. well known in Eastern
Brother & Taylor, well known in Eastern,
with for his work & records seen by Joseph
as the third child & second son of Joseph
Hyman & Mattie Stottom Taylor, He was
born in Mattie Taylor Aug 1, 1879. His
family moved to Dingwille in Aug of
year, 1880

Closely associated with the growth of
Emerg County, & particularly Dingwille,
his father directly recalls in incident
connected with the first fence built
around the family city lot, in which the
all recalls. His father acted as lumber
man & asked John if he thought he
could through John Taylor & after
getting his hand through, his father
help to get back the fence was set Aug,
for a time after that.

Johnnie as he was called, worked
with his father on the farm country
in cattle, raising timber & lumber firm
the mainline & engaging in the many
other activities typical of him & as
he matured, he became acknowledged as an
outstanding athlete, particularly in the
field of crop ball & football.
After his marriage, in 1915, 1899

To Sacramento E. Woodward in the
Monte Temple he continued his activities
as a successful farmer & livestock
producer.

He started work with the Central
Electric Power & Lighting Company at
in 1909, with Dick & Orlingville Paul
Electric Light & Power Co. The first
plant was built in C. D. at the old
Flour mill & was steam powered in
1904. The equipment was moved to Camp-
Bells in 1907 & located in the Coonment
the Flour mill then. Later on addition to
the mill was built when the plant was
placed. no day service was furnished at
first, later 2 days per week then 3 days
& then full time, at first power was
discontinued at midday but will

run every day of C. D. The first electric
well built driven & along making
motor motor driving out. The wheels and
the motor was taken out. Both from
a fly wheel & a wheel flats both from
a fly to wheel and the job of turning
the wheels. The Wagon was still found
the wheels and working was done at night
operated of no day service.

Because of no day service from B. F.
In 1911 the I open family power
closed and building entered from B. F.
Chas & C. L. Allen & John Cook over the
Tuba & C. L. Allen of the Flour mill
& John Messinger they operated independently
& power plant they operated stop per & I go
deathly until 1920. The camp at the Paul
camp of Paul & John & John at Paul

of M. Morgan of Great Britain & his best
just job. Intermurally kind & exhibited
and found & recall in that he never got
a days work from substance or accident in
his forty years of service. For the purpose
Booth's job was for the purpose
company, he found time to be in the in
Civil & Church work. He served as City
Councilman for twelve years under three
Mayors & was Mayor himself, during
his term as Mayor of the City of
was purchased & other valuable equipment.
As a church man he served in the
experiences of both Sunday School
and of M. M. & a, Stokes & work. His was
Bishop of the Episcopal work 17 years.
and as at present as High Commissioner of
Emergency State. During his Superintending
of work in the. Seeking was returned
to the Bishop with confidence in my
the first State of the. It was during
his term as Bishop that the present
work of the was built for him. 1947

After this work, he
after further plans have not been
completed but he says he will get
some of these "for away plans" and work
about in the, however 70% of
activity will not be followed by machinery
for long.
